General Information

Standard: USFDA CFR Title 21 Part 165.110
Lot Number: 010815 MV08:11 010818
Product Description: Mountain Valley | Spring Water – 24 oz – Spring 1

Sample Id: S-0001146509
Description: Mountain Valley | Spring Water – 24 oz – Spring 1 - 010815 MV08:11 010818
Sampled Date: 04/20/2015
Received Date: 04/15/2015

Testing Parameter | Reporting Limit | Result | FDA SOQ | Units | P / F

Test descriptions preceded by an asterisk "*" indicate that testing has been performed per NSF International requirements but is not within its scope of accreditation.

The reported result for Odor, Phenolics, Potassium, Specific Conductance and Total Residual Chlorine cannot be used for compliance purposes within the State of Arizona.

Notes:

1) Bottled water sold in the United States shall not contain Fluoride in excess of the levels published by the USFDA in 21 CFR Part 165.110. These levels are based on the annual average of maximum daily air temperatures at the location where the bottled water is sold at retail. Please refer to the most current edition of the regulation to determine the Fluoride maximum level that pertains to your product.
2) A blank on the FDA SOQ column indicates that no maximum level has been established by the FDA for that contaminant.
3) An ND result means that the contaminant was not detected at or above the reporting limit.
